THEME PARK MUSIC & SFX EXPERTS

**WE ARE**

**EVRST Music is a premier music production company specializing in the leisure industry, with a focus on soundtracks and SFX for themed experiences like amusement park rides and thematic environments.**

In our cutting-edge studio, we craft exceptional music that meets and exceeds modern industry standards. Our services include conceptualization, songwriting, production, scoring, recording, mixing, mastering, publishing and licensing.

Creativity, passion and a deep love for music are at the heart of everything we do. This dedication is evident in the high quality of our work, something we take immense pride in. Our team has expertise in a wide array of music styles and techniques.

Whether it's adventurous scoring, haunted house themes or modern electronic soundtracks for futuristic coasters, we embrace all music and are eager to explore uncharted sonic territories!

Our mission is to create unique audio experiences for each project, adding an extra dimension, **crafting the ultimate illusion!**

# MUSIC PRODUCTION

## THE MAGIC OF CUSTOM WRITTEN MUSIC

At EVRST Music, we understand the profound impact music has in crafting unforgettable moments. In the realm of theme parks, music is much more than just background noise. It's an art that infuses life into every attraction, creating an immersive environment. Music transcends language and stirs deep emotions, making it an essential element of any theme park experience. Choosing the right partner for your project is paramount; the chemistry of a custom-written soundtrack can elevate an attraction to new heights.

Our mission is to harmonize the beauty of symphonic music with the innovation of modern sounds, creating compositions that truly capture the spirit of theme park music. Our music lingers in the hearts of visitors long after they've left the attraction.

We are dedicated to become a leader in the industry, employing state-of-the-art technology to expertly handle large-scale projects, meeting the highest industry standards of music production.

# SOUND DESIGN & EFFECTS

## THE ULTIMATE ILLUSION

We specialize in creating professional sound design for amusement parks, where we merge cutting-edge synthesizer technology with natural sounds to deliver truly immersive audio experiences. Our team excels in crafting atmospheric soundscapes, sound effects for rides and lifelike audio for animatronics.

Additionally, we work closely with voice actors to produce customized messages and offer tailored audio-visual solutions for commercials and ride guidance systems. Every detail is designed to ensure a cohesive and captivating environment for your guests.

# AUDIO ENGINEERING

## ENSURING OPTIMAL PERFORMANCE

Audio Engineering is a multifaceted discipline that includes audio editing, restoration, mixing and mastering. Each essential for creating music and sound that performs flawlessly across all speaker systems. This requires advanced techniques and skills to preserve the music or sound's integrity and quality, no matter the playback device.

With the increasing prevalence of online streaming, we ensure that your audio meets specific loudness standards for optimal playback. We deliver music in the highest modern formats, whether for small speakers or expansive surround sound systems.

Our services also encompass on-site implementation, equalization, mixing, mastering and technical advise, ensuring your audio product is perfectly optimized for any playback environment.

# PUBLISHING & LICENSING

## DELIVERING YOUR PRODUCT

We provide complete publishing and licensing services to ensure your music reaches all major streaming platforms, with the option to produce physical media like CDs. Our team manages every detail, from obtaining licenses to designing custom artwork and handling crucial elements like global identifiers and registration with collective rights organizations.

Our in-house graphic design team can create the necessary visuals that perfectly align with your attraction and corporate identity.

These services allows your visitors to enjoy their favorite soundtracks long after their visit, enhancing their overall experience and making it a memorable part of your attraction.

  
EVIRST MUSIC

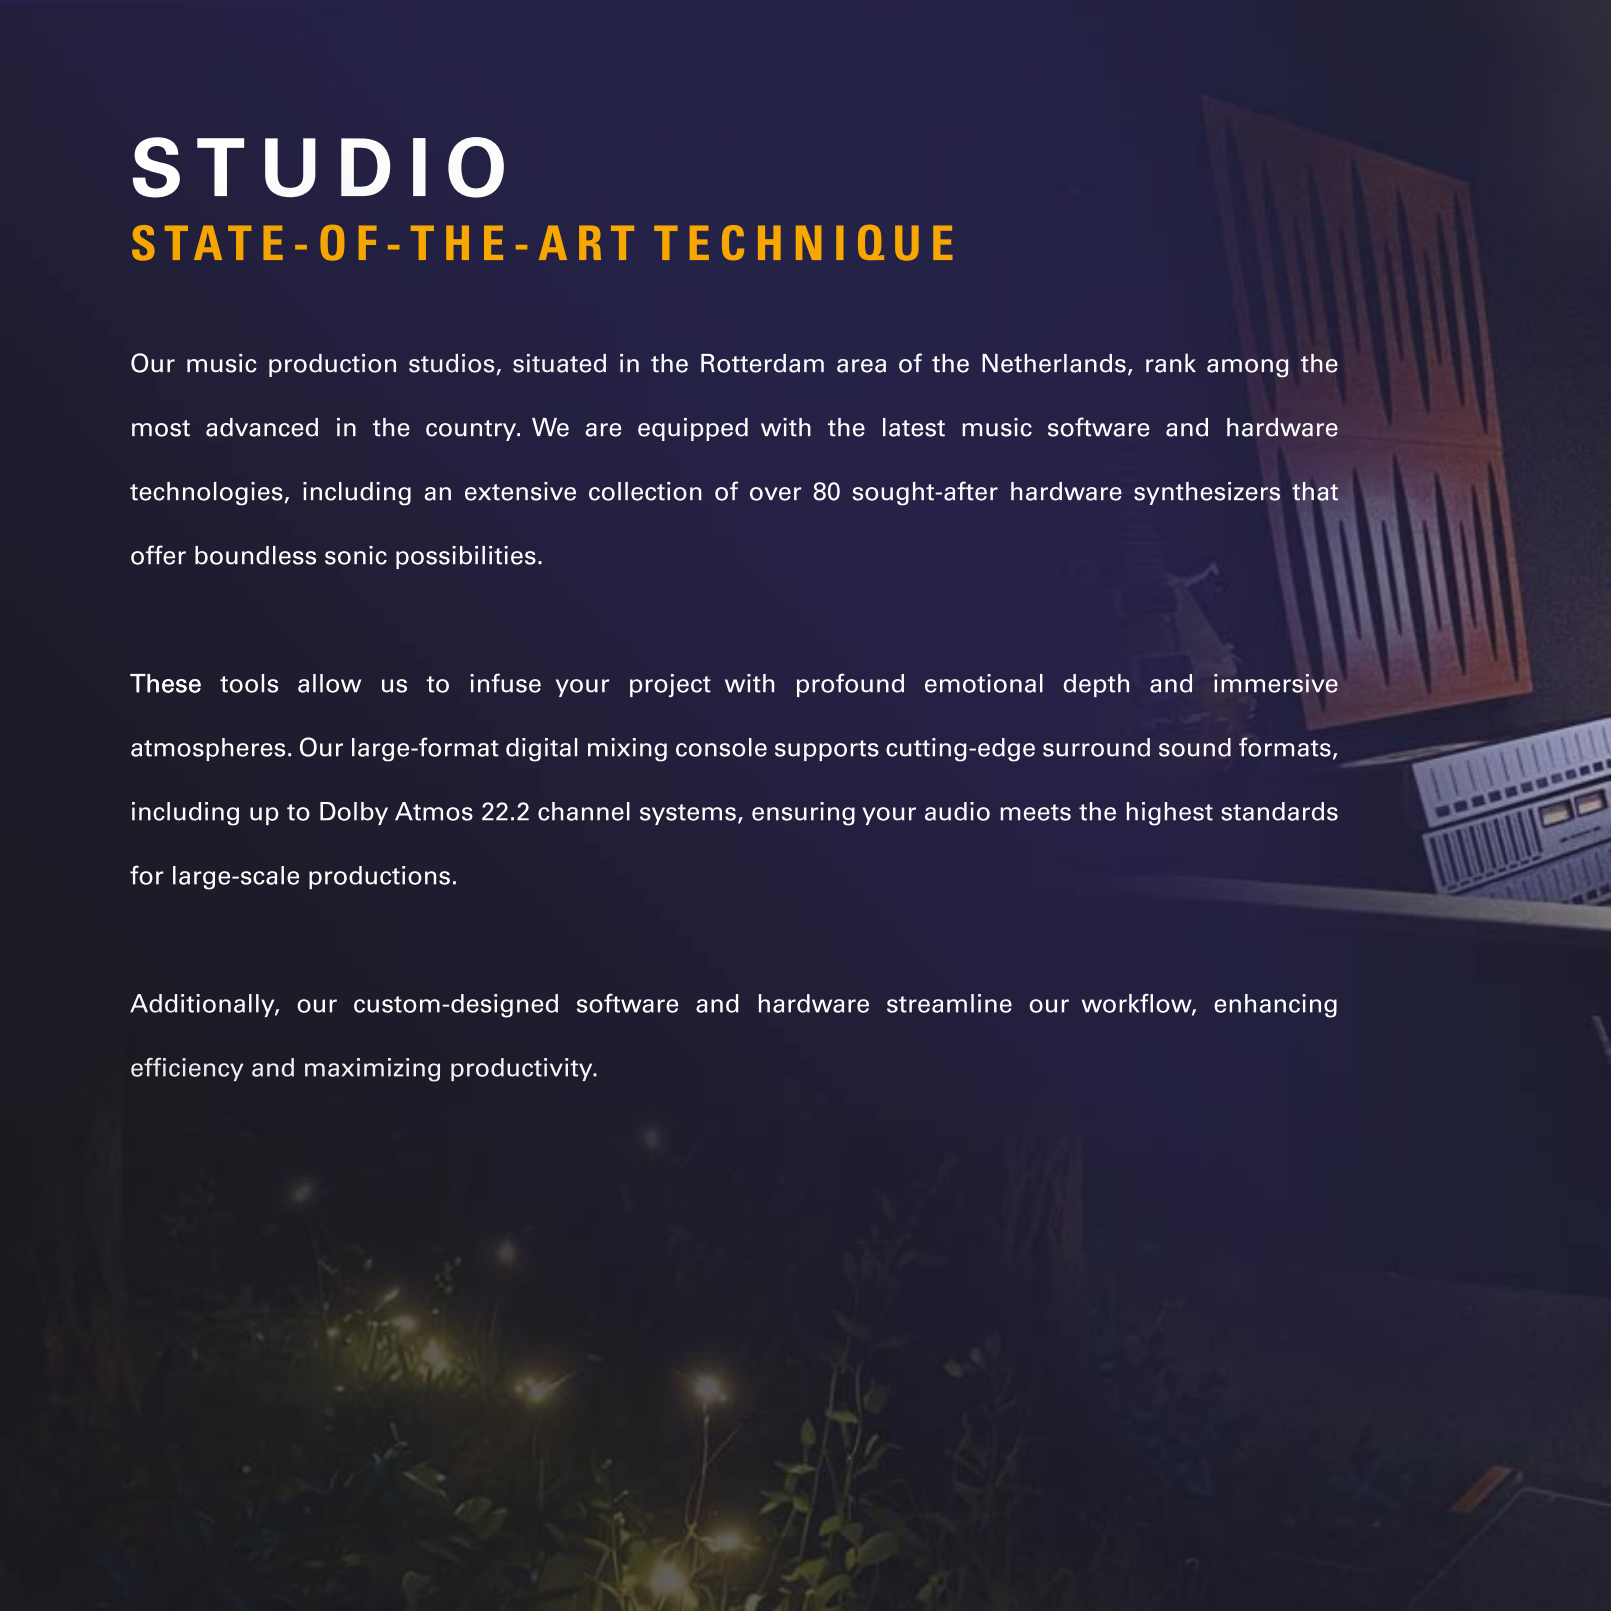

# STUDIO

## STATE-OF-THE-ART TECHNIQUE

Our music production studios, situated in the Rotterdam area of the Netherlands, rank among the most advanced in the country. We are equipped with the latest music software and hardware technologies, including an extensive collection of over 80 sought-after hardware synthesizers that offer boundless sonic possibilities.

These tools allow us to infuse your project with profound emotional depth and immersive atmospheres. Our large-format digital mixing console supports cutting-edge surround sound formats, including up to Dolby Atmos 22.2 channel systems, ensuring your audio meets the highest standards for large-scale productions.

Additionally, our custom-designed software and hardware streamline our workflow, enhancing efficiency and maximizing productivity.

**Without music: "Bikes don't really fly. Nor do brooms in Quidditch matches. Nor do men in red capes. There is no Force. Dinosaurs do not walk the Earth. We do not wonder. We do not weep. We do not believe."**

**Steven Spielberg, on the great John Williams**

**EVRST MUSIC**

# HARDWARE DESIGN

## ENRICH THE MUSIC WORLD

As a pioneer in the music industry, we are committed to pushing the boundaries of music and audio technology. We are excited to share a recent achievement: the launch of DuTCH.audio studio hardware devices, including mastering insert consoles and monitor speaker controllers.

These state-of-the-art studio tools, crafted for producers and mastering engineers, combine the finest passive analog audio circuitry with cutting-edge digital networking and recall technology. The DuTCH.audio series has rapidly gained recognition and preference among leading mastering engineers worldwide like Bob Katz.

Our partnership with DuTCH.audio underscores our dedication to advancing music production by merging analog warmth with digital precision.

# SHOW SYSTEM

## MUSIC & SFX HARDWARE SYSTEM FOR RIDES

**EVRST Engineering, a sister company of EVRST Music, has developed a comprehensive show system designed to handle all aspects of multimedia operations in theme parks.**

The system was initially designed to streamline operations for our music production department in response to project requirements. However, it quickly evolved into a highly versatile stand-alone product. Our systems encapsulate over 20 years of industrial-grade hardware and software development expertise.

Our show controller modules are custom-engineered for the leisure industry, delivering multi-zone music and show effects tailored for themed areas and rides. Equipped with internet connectivity, these devices can be remotely managed and serviced, significantly reducing technical issues and streamlining daily operations.

As a leading provider of technology and music solutions for the leisure industry, EVRST Music offers attractive discounts on our hardware when you use our music services.
